Small parcel delivery

DELIVERIES CAN BE MADE, ONLY FOR SMALL PARCELS (KAKEMONOS, DOCUMENTATION...) BETWEEN SEPTEMBER 20 AND 24, 2021, FROM 07:30 TO 16:30.

It is imperative to mention on the packages the exact place of delivery, as well as the name of the event:

**Palais du Pharo
Congrès de l'ADBU
58, Bd Charles Livon
13007 Marseille**

Except for handling equipment, no vehicle will be allowed to enter the exhibition area.

A storage area is provided for small packages. Upon arrival, the exhibitor will come and collect them.

THE IDENTIFICATION OF THE PARCELS IS IMPERATIVE, PLEASE USE THE LABEL IN THE APPENDIX.

IMPORTANT

- OUTSIDE THE DAYS AND TIMES OF DELIVERY INDICATED ABOVE, NO PARCEL WILL BE ACCEPTED**
- PACKAGES WITHOUT THE NECESSARY INFORMATION MAY BE REFUSED.**
- ADBU AND THE PALAIS DU PHARO DECLINE ALL RESPONSIBILITY IF, AS A RESULT OF INSUFFICIENT INSTRUCTIONS, THE MATERIAL IS NOT DELIVERED ON TIME OR IF IT IS DAMAGED**

For large parcel delivery, please contact ADBU (deleguee.generale@adbu.fr) with your requirements.

AFTER THE CONGRESS :

In the event that a carrier has to pick up your packages, we thank you to

- Close all the parcels well
- Label them with the return address and number them (e.g.: 1/5, 2/5... 5/5), mention a name and a cell phone number on the first package
- Bring them to the dedicated storage area
- Notify the carrier to pick them up:

Wednesday, September 29 from 2:30pm to 5pm or Thursday, September 30 from 7:30am to 4pm

**IMPORTANT: ANY PACKAGES OR DOCUMENTS LEFT ON THE STAND WHEN THE EXHIBITOR LEAVES WILL BE DISPOSED OF BY THE CLEANING SERVICE.
IN THE ABSENCE OF THE EXHIBITOR ON THE ARRIVAL OF THE CARRIER, ADBU AND THE PALAIS DU PHARO DECLINE ALL RESPONSIBILITY FOR DAMAGE, LOSS OR THEFT OF PACKAGES.**

Silver: 9m² - 3m x 3m

Bronze: 6m² - 2m x 3m

Bronze mini: 4m² - 2m x 2m

Extra services

ELECTRICAL CONNECTIONS

The equipped stands are equipped, by default, with a triplet (2 triplets for the platinum stand).

For any request for electrical power over 3Kw, please contact the organizer (sophie@expooouest.com)

When the exhibitor takes possession of his stand, the equipment is powered up. The connection can be made to any of the available sockets, within the maximum intensity allowed for each of them, i.e.: 16A on each of the classic sockets.

INTERNET

The Palais du Pharo is equipped with a public Wifi network for the participants and covering all the rooms.

Accessible from a captive portal, users just have to fill in the different fields and accept the general conditions of use. This connection allows access to the web, webmail and social networks with an upload and download speed limited to 1Mbps.

Important: WIFI PIRATE

The multiplication of Wifi networks (not belonging to the Palais du Pharo) can cause disturbances on the main Wifi network. We can not ensure the proper functioning of the Wifi if the number of "pirate wifi" is too important. We ask you not to create wifi networks on your stand in order to limit the number of wifi networks and therefore the disturbances.

BOOTH LAYOUT & FURNITURE RENTAL

The list of furniture and the attached order form allow you to add furniture to your stand, in addition to the items already present.

The order form must be sent before 30/08/2021 to
Expo-Ouest - ZA Les Landes - 22490 Plouer Sur Rance
Phone : 02 96 89 12 12 - Email : info@expooouest.com
After this date, we cannot guarantee the availability of the furniture

COFFEE BREAKS & CATERING SERVICES ON BOOTH

For any order of catering services on your stand, we invite you to read the catering catalog in the appendix and directly contact Yannick Phan at La truffe noire: yannick@latruffenoire.com

Insurance and security

INSURANCE

The exhibitor's insurance is compulsory for the entire duration of the event and for sufficient sums, against bodily injury, material and immaterial damage of all kinds that he is likely to cause by his own doing or by the fact of the persons for whom he is responsible.

The exhibitor must also insure all his equipment and installations. It is strongly advised to insure the exact value of the goods exhibited, otherwise the claim will be partially settled.

The ADBU will not be held responsible for any damage to or theft of exhibitors' goods on the exhibition premises.

GUARDING

Day and night surveillance of the building is provided by the Palais du Pharo, without however the application of this provision constituting any responsibility for it or for the ADBU.

Exhibitors presenting sensitive products are strongly advised to complete the closing of their stands with padlocks in order to close the goods reserves.

No one will be allowed on the stand outside the days and hours when it is open to exhibitors.

Exhibitor's specifications

1- Obligations of the exhibitors and tenants of the stands:

The exhibitors and tenants of the stands must respect the present specifications.

- It is strictly forbidden to smoke inside the Palais du Pharo, including electronic cigarettes.
- The fittings of the stands and others must be completed at the time of the reception visit before the opening by the safety commission or by the safety officer, all measures must be taken so that they can examine them in detail.

In each stand, the exhibitor or his designated and qualified representative must be present during this acceptance visit:

- He must make available to the members of the commission or the safety officer all the information concerning the installations and materials used (fire reaction certificates, certificate of correct assembly and conformity of electrical installations)
- Exhibitors and tenants of stands using dangerous machines or products must make a declaration (see form) to the organizer one month before the exhibition opens to the public.

2- General design of clearances

Exhibitors and tenants of stands must respect the limits of their location: they may not encroach on evacuation routes and access to exits

Large stands must be designed in such a way as not to hinder evacuation conditions and flows.

3- Stand layout

- The constitution, the design of the stands, in particular their partitioning and their framework must be made of materials of category M 3 (Euroclasses Ds1d0) from the point of view of reaction to fire.
- Floral decorations made of synthetic materials must be limited in use. Otherwise, these decorations must be made of materials of category M 2 (Euroclasses Ds123d01) from the point of view of reaction to fire.

- The materials exhibited may be displayed on the stands without any reaction to fire requirements. However, if these materials are used for the decoration of partitions or false ceilings and if they represent more than 20% of the total surface of the elements, the present provisions are applicable to them.

- If a tent or structure is installed in the Palais du Pharo: this work must comply with the provisions of articles CTS 1 to CTS 37 with the exception of article CTS 5. In no case can incompatibility be admitted between the provisions of the concerned CTS articles and the provisions of the present chapter. The structure designated above must be designed and installed in such a way that its use and its environment do not diminish its level of safety.

The use of staples, tacks or glue for displaying materials or documents on booth panels is prohibited.

The use of adhesive male "velcro" pads or chains provided by the organizer is only recommended.

The materials exhibited must not cause any inconvenience or damage to neighbouring stands.

It is impossible to use double-sided tape or any other strongly adhesive model to fix a floor covering.

It is absolutely forbidden to carry out :

Any work on smoke, water and compressed air ducts, electrical or telephone circuits, water or drain pipes, elevators, elevators and trenches for pipes.

Any drilling of holes for hanging or sealing.

Removal of doors, antenna fixtures, etc...

Hanging or suspending any structure from the ceiling or false ceiling, including signage.

Repairs to damage resulting from failure to comply with the above clauses will be charged in full to the exhibitor.

4- Canopies

Horizontally installed canopies are authorized during the event under the following conditions:

- They must be provided with sufficiently numerous and resistant hanging systems to prevent them from falling during the evacuation of the public.
- They must be made of M1 category materials (Euroclasses A2s123d0 or Bs123d0) in terms of reaction to fire.
- The tenant or exhibitor must provide a report on the strength of the hanging.

5- Temporary gas installations

Gas installations in the stands are not allowed.

6- Use of liquefied hydrocarbons

The use of liquefied hydrocarbons is not allowed inside the exhibition hall.

7- Special electrical installations in the stands

The particular installations of the stands must be carried out by persons who are particularly aware of the specific risks of the event. They must have the knowledge to design and execute the work in accordance with the present regulations.

- o The delivery box of each stand must be inaccessible to the public, while remaining easily accessible to stand personnel.
- o The conduits may be attached to the temporary fittings of the stands.
- o If flexible cables are used, they must be designed for a nominal voltage of at least 500 volts.
- o Socket outlets must be connected to circuits protected by overcurrent protection devices with a maximum current rating of 16 amps.
- o Any appliance requiring a higher wattage must be supplied by a specially adapted circuit.
- o The use of a multiple adapter or multiple box powered from a fixed base is permitted.
- o All conduits must have a protective conductor connected to the grounding terminal. The use of individual protective earths is not permitted.

NOTE: All temporary electrical installations will be inspected by an approved person or organization and a compliance report will be attached to the safety notice.

8- Normal lighting

The devices ensuring normal lighting in the stands can be mobile; their power supply must respect the provisions of the present specifications. After validation, their initial installation cannot be modified without the opinion of the safety officer.

9- Machines and equipment presented in operation

All presentations and demonstrations are carried out under the sole responsibility of the operator. The machines and devices presented in operation must not pose any risk to the public and must be declared to the organizer in accordance with the provisions.

10- Protection of the public

If the machines or equipment, whether in operation or not, are displayed in a fixed position, they must be equipped with devices that put the dangerous parts out of the reach of the public moving in the aisles. This result is considered to have been achieved if the dangerous parts are located more than one meter from the public aisle or if it is protected by a rigid screen. The following are considered as dangerous parts: moving parts, hot surfaces, points and sharp edges

If the machines or devices are presented in evolution, a protected area must put the public at least one meter away from the machines; this distance can be increased after advice from the safety commission according to the risks generated.

All equipment must be properly stabilized to avoid any risk of tipping.

11- Motor vehicles and heat engines

The tanks of the engines presented at the stop must be emptied or provided with locked plugs. The terminals of the batteries must be protected so as to be inaccessible. No motor must be running inside the Palais du Pharo during the hours the event is open to the public.

12-Prohibited materials, products, gases

The following are prohibited

- Distribution of samples or products containing flammable gas.
- Balloons inflated with flammable or toxic gas.
- Celluloid items
- The presence of pyrotechnic devices or explosives.
- The presence of ethyl oxide, carbon sulphide, sulphuric ether and acetone. The use of acetylene, oxygen, hydrogen or any gas presenting the same risk is prohibited, except in the case of a special dispensation granted directly to the exhibitor by the administrative authority.

Flammable liquids

The use of flammable liquids is prohibited

14-Operating instructions

It is forbidden to store crates, wood, straw, cardboard, etc. in the exhibition areas, in the stands and in the corridors.

Regular cleaning (daily cleaning) must rid the premises of dust and waste of any kind.

All waste and garbage from cleaning and sweeping must be removed each day, before the opening time to the public and transported out of the establishment.

15-Parking of vehicles

It is important to inform the exhibitors and their suppliers that there is no parking space within the garden of the Palais du Pharo. Since access is through the garden, it is imperative to drive at a slow pace.

Parking is tolerated for the duration of loading and unloading operations in the areas occupied by the event, no long-term parking can be granted in the public garden. Any abusive parking may be punished by a fine or removal of the vehicle.
